

Unfortunately, Mo-Skeet-O shooting was discontinued after the 1952 summer. Although we were all saddened, we realized that the club management made a wise decision. It was very dangerous to have a loaded weapon (capable of killing or injuring someone) in the hands of excitable kids supervised only by not-much-older teenagers. No warning signs were posted anywhere in the short distance between the clubhouse and Badger Lake. Anyone, guest or worker, could unknowingly have walked uphill from the lake and directly into the line of fire.
